

The drawing illustrates a mechanical assembly with a central shaft and various components. The front view shows a central shaft with a diameter of $\varnothing 56$ and a length of 170. The shaft is supported by bearings and has a central component with a diameter of $\varnothing 42$ and a length of 121.5. The assembly is mounted on a base with a total width of 190 and a height of 150. The base has four mounting holes with a diameter of $\varnothing 17$. The central component has a diameter of $\varnothing 30$ and a length of 83. The shaft has a diameter of $\varnothing 17$ at the ends. The detailed cross-section shows the internal structure of the central component, including a central hole with a diameter of $\varnothing 42$ and a central shaft with a diameter of $\varnothing 30$. The cross-section also shows the internal structure of the bearings and the base.
